APR 27 2018

Mr. Butch Tongate
Secretary
New Mexico Environment Department
P.O. Box 5469
Santa Fe, NM 87502

RE: Approval of the *Aluminum Total Maximum Daily Load (TMDL) Updates for the Middle Rio Grande Basin*

Dear Mr. Tongate:

The U.S. Environmental Protection Agency (EPA), Region 6 has reviewed the updates to the New Mexico Statewide Water Quality Management Plan (WQMP) transmitted to me on March 20, 2018. Following EPA's review and evaluation of the WQMP updates, EPA is pleased to approve the *Aluminum Total Maximum Daily Load (TMDL) Updates for the Middle Rio Grande Basin*.

The WQMP updates have been certified by the Governor's Designee and have undergone public participation as required by 40 CFR Part 25.

EPA appreciates New Mexico Environment Department's continuing efforts to maintain the WQMP in an efficient and timely manner. If you have any questions or concerns, please feel free to contact me directly at (214) 665-7101, or your staff may contact Laura Hunt, TMDL Coordinator, at (214) 665-9729.

Sincerely,

A handwritten signature in dark ink, appearing to read "David F. Garcia", is written over the typed name.

David F. Garcia. P.E.
Acting Director
Water Division
